👤 PROFILE

I am a dedicated Computer Science graduate from the Class of 2025, possessing practical experience acquired through an internship in web development. My skill set includes proficiency in HTML, CSS, and JavaScript, in addition to familiarity with frameworks such as React and Laravel. I take great pleasure in developing scalable and user-friendly solutions. I am currently seeking a full-time position as a software engineer or Fullstack Developer, where I can leverage my expertise and continue to expand my knowledge.

📁 PROFESSIONAL EXPERIENCE

Software Engineer, Adani Group

11/2025 – Present
Ahmedabad, india

- Work on **client-facing projects**, providing real-time solutions to technical issues and ensuring smooth system functionality on the spot.
- Develop and maintain **Node.js applications**, focusing on performance, scalability, and reliability.
- Utilize **Microsoft Azure Cloud services** for deployment, monitoring, and optimization of applications.
- Manage and optimize **databases**, including query performance tuning and data integrity checks.
- Collaborate with cross-functional teams to gather requirements, analyze problems, and deliver effective technical solutions under tight deadlines.

Junior Laravel developer, SNSIT India Pvt Ltd

05/2025 – 11/2025
Remote

- Developed and maintained web applications using **Laravel, PHP, and MySQL**.
- Implemented **user authentication, role-based access control, and real-time features**.
- Designed and optimized **responsive frontends** with **Bootstrap** and **CSS**.
- Integrated **third-party APIs** and handled **payment gateway setups** (e.g., Razorpay, Stripe).
- Collaborated with the team on a **live HRMS project (Team Sync)**, focusing on product pages, cart system, and checkout flow.
- Applied **best coding practices**, debugging, and testing to ensure project stability.

Software Development Intern, Dweck Enterprise Pvt Ltd

10/2024 – 03/2025
Ahmedabad, India

- Worked with **React.js** and **GSAP** (GreenSock Animation Platform) to develop interactive and visually appealing web applications during an internship at Dweck Enterprise Pvt Ltd.
- Designed and implemented smooth animations and UI transitions to enhance user experience.
- Improved front-end performance and responsiveness using modern JavaScript frameworks.

EDUCATION

Bachelor Of Engineering In Computer Science, LJ University CPI: 7.65	09/2022 – 05/2025 Ahmedabad, India
Higher Secondary Certificate (HSC), Shree Kalapi Vinay Mandir Percentage: 82%	06/2020 – 05/2021 Lathi, India
Secondary School Certification, Shree Kalapi Vinay Mandir Percentage: 80%	05/2018 – 03/2019 Lathi, India

SKILLS

Programming Languages

C, Python, JavaScript, PHP, Java

Data Analysis

Pandas, Matplotlib, Seaborn, simpleguics2pygame, Web Scraping

Database Management

MySQL, MongoDB, SQL

Web Development

HTML, CSS, Bootstrap, MERN Stack, Django, Laravel, APIs, GSAP, Framer Motion

Machine Learning & AI

scikit-learn, Basics of AI, Linear Regression, OpenCV, YOLO

PROJECTS

Team Sync - Live HRMS System

Team Sync is a comprehensive **Human Resource Management System (HRMS)** developed using **Laravel** framework. It is designed to help companies efficiently manage their HR operations including employee data, attendance, leave management, payroll, and performance tracking — all in one centralized platform.

Royal Crown - Live Website Development

Contributing to the development and enhancement of the Royal Crown website at Dweck Enterprise Pvt Ltd. Implementing front-end features, optimizing performance, and integrating animations using Next.js and GSAP to enhance user experience and engagement.

World of FIAN - Jewelry ECommerce Website

Developing the FIAN website, an online jewelry-selling platform for Dweck Enterprise Pvt Ltd, using HTML, Tailwind CSS, and JavaScript. Implementing a responsive and visually appealing design while optimizing performance and user experience.

Online Job Portfolio Using MERN stack

Developed a dynamic job portfolio website using the MERN stack (MongoDB, Express.js, React.js, Node.js). Implemented features for showcasing projects, skills, and experience, with a responsive design and optimized performance for seamless user interaction.

Blogging Website Using Laravel

Developed a dynamic blogging platform using Laravel, enabling users to create, edit, delete and manage blog posts. Implemented user authentication, comment and like functionality, and a responsive design for an enhanced user experience.

Weather Web Using APIs

Developed a weather web application using APIs to fetch real-time weather data. Integrated features like location-based weather updates, temperature, humidity, and weather conditions with a user-friendly interface.
